

Curtiss-Wright provides high-tech, critical-function products, systems and services to the commercial, industrial, defense and power markets, and our operational success is dependent on strong, long-term relationships with our customers and suppliers.

The Company's 'One Curtiss-Wright' vision prioritizes the customer to ensure that we continue to deliver state-of-the-art, reliable solutions. We depend on our supply base to help us reach that vision with the expertise and key competencies they provide to our products and solutions.

Business Principles

Curtiss-Wright operates its worldwide business in accordance with the highest ethical standards and relevant laws. The Company places the highest value on the integrity of each of its suppliers and customers that wish to do business with Curtiss-Wright. All suppliers and customers of Curtiss-Wright are responsible for complying with all applicable laws, regulations and this Code of Conduct. Curtiss-Wright's corporate culture demands not only legal compliance, but also responsible and ethical behaviour. [Read full text here:](#)

Sustainability

We aim to deliver services in a responsible and sustainable fashion in our strive to be a strong business partner to our customers. Our services increase products strengths and life-span and thereby decrease the amount of raw materials needed.

We expect our suppliers to conduct work according to same principles and not supplying goods containing, or services performed with, substances present of any of the list below:

Scania/Volvo Grey/Black/Red list:

- [STD4158](#)
- [STD4159](#)
- [STD 100-0002](#)
- [STD 100-0003](#)
- [STD 100-0005](#)

European Chemicals Agency:

- [Candidate List of substances of very high concern for Authorisation](#)
- [Substances restricted under REACH](#)
- [Authorisation List](#)
