CURTISS-WRIGHT ANNOUNCES NEW SURFACE TECHNOLOGIES FACILITY IN HYDERABAD, INDIA

PARAMUS, NJ – March 10, 2023 – [Curtiss-Wright's Surface Technologies Division](#), a leading global provider of highly engineered surface treatments and analytical services, announces the opening of its Hyderabad, India facility. In addition to the existing facility in Bangalore, India, this facility will be a new hub for aero structure and MRO operations as well as support the growing power generation industry. It will offer a wide variety of services from shot peening to dry blasting, correction of distortion, and boiler tube ID peening, to support the local market and industries.

David Rivellini, Senior Vice President and General Manager, Curtiss-Wright Surface Technologies Division, says "The need to have a second location in Hyderabad is because India is the 3rd largest and fastest growing aviation market in terms of domestic tickets sold, and this is a core industry for the country. This new facility will support the growing aerospace sector and provide surface technologies services to ensure aircraft components are protected from stress corrosion cracking and other common problems they face under extreme heat and thermal variations. We will also be supporting power generation, industrial and off highway vehicles from this facility."
